QUALITY POLICY

ANABÁTICA CONSULTORES SPA, hereinafter ANABÁTICA, is an organization that provides technical consulting services for renewables energy and storage projects. Our work ranges from design analysis, development, and economic evaluation to construction supervision and commissioning, operating in Chile and Argentina for projects throughout Latin America.

Our commitment is focused on delivering high-quality solutions tailored to the needs and expectations of our clients, ensuring continuous improvement of our processes and aligning with the principles established in the ISO 9001:2015 standard, which are detailed below:

1. Ensure that our services meet the agreed scope with our clients, providing reliable and efficient results that add value to the projects.
2. Adhere to applicable legislation and international standards that govern our activities, ensuring ethical and professional conduct in all our operations.
3. Implement a quality management system that promotes continuous review and improvement of our processes, ensuring operational excellence and innovation in the services we offer.
4. Provide the necessary resources, including continuous training for our team, to ensure technical and professional competence across all areas of the organization.
5. Encourage the participation of all team members in compliance with this policy, fostering a culture of shared responsibility and commitment.
6. Maintain effective internal and external communication channels that allow for continuous feedback, ensuring that the principles of this policy are understood and adopted by all relevant stakeholders.

This policy will be reviewed annually to ensure its validity and appropriateness to the needs of the organization and interested parties. It will be available to all employees and relevant external parties, who are key to the success and fulfillment of our objectives.
